SUMMARY

Software engineer with hands-on experience building internal tooling, automation pipelines, and backend applications at Apple. Currently designing and shipping a Python SDK that automates end-to-end test reporting — from REST API data ingestion and Tableau dashboards to containerized CI/CD workflows running on Kubernetes for 200+ engineers. Background spans backend development, test automation infrastructure, and security operations, with a track record of building reusable tools that multiple teams adopt.

EXPERIENCE

Automation & Reporting Engineer (Career Experience) — Apple 2026-01 – Present
Sunnyvale, CA

- Designed and shipped an internal Python SDK that automates the end-to-end test reporting pipeline — ingesting data via REST APIs, generating Tableau dashboards, and delivering HTML/CSS email reports — replacing a manual ~3-hour process with a fully automated workflow that runs in minutes.
- Containerized the reporting workflow with Docker and integrated it into internal CI/CD tooling, enabling reliable, repeatable execution across environments.
- Published the SDK to an internal package registry and drove cross-team adoption, enabling multiple programs to reuse the same tooling infrastructure.
- Built and maintain a Python backend and dashboard application that fetches and aggregates test data into monitoring views used daily by engineers across the organization.
- Deployed and host the backend application on Kubernetes, providing a scalable and reliable service that supports 200+ engineers.
- Integrated AI-driven summarization into the reporting pipeline to surface actionable insights from test result data.

Genius — Apple 2024-02 – 2025-12
New Haven, CT

- Maintained a Net Promoter Score above 90 through expert hardware and software troubleshooting on macOS and iOS devices.
- Mentored teammates on technical workflows and led daily operational processes.

SOC Analyst — Charles IT 2023-06 – 2024-02
Middletown, CT

- Monitored and triaged SIEM alerts, investigated security incidents, and managed user access and VPN configurations using Active Directory and Cisco Meraki for MSP clients.

Director of Creative Solutions — BrightMinds Speakers 2019-06 – Present
Remote

- Led creative production and developed content strategies for small business clients, consistently producing content that generates thousands to millions of views.

EDUCATION

- Expected Graduation: Dec 2026

SKILLS

language: Python, JavaScript, SQL, Bash, HTML/CSS

tool: Docker, Kubernetes, CI/CD tooling, REST APIs, Tableau, Git, Active Directory, Cisco Meraki, Slack

platform: Azure, macOS/iOS

skill: AI integration, test automation, tools and automation

CERTIFICATIONS

CompTIA A+ — CompTIA	None
CompTIA Network+ — CompTIA	None
CompTIA Security+ — CompTIA	None
